Professional Summary

Full Stack Developer with 2+ years of experience in Node.js, Express.js, MongoDB, Redis, and React.js. Experienced in building scalable REST APIs, real-time systems, GPS tracking solutions, and deploying production applications on Linux.

Technical Skills

- **Frontend Technologies:** React.js, Next.js, TypeScript, Redux, Zustand, Tailwind CSS, React Query, TanStack Table, React Hook Form, Zod, Leaflet
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, RBAC, Webhooks, Cron Jobs, BUN, HONO
- **Databases:** MongoDB, Mongoose, SQL (basic), Supabase
- **Payments & Integrations:** Razorpay, Firebase Cloud Messaging
- **DevOps & Tools:** Git, GitHub, VPS Deployment, NGINX, Node clustering, redis
- **Additional:** WebSocket, API Integration
- **Methodologies:** Agile/Scrum

Professional Experience

Full Stack Developer (INTERN), Royal Web Tech – Nagpur, MH June 2024 – Aug 2024

- Worked in Agile/Scrum environments, participating in sprint planning, implementation, testing, and deployment activities.

LMS (Layout Management System)

React, context api, redux, Chakra UI

- Developed responsive frontend modules for a real estate management platform using React.js and Chakra UI.
- Integrated frontend components with PHP backend APIs for seamless application functionality.
- Built reusable UI components using React Hooks and state management to improve maintainability.
- Collaborated with cross-functional teams to deliver scalable, production-ready features.

Full Stack Developer, HBGadget Tech – Nagpur, MH

Aug 2024 – Present

- Worked in Agile/Scrum environments, participating in sprint planning, implementation, testing, and deployment activities.

Credence Tracker

Node, TypeScript, MongoDB, WebSocket, Redis, Socket io, Firebase, Razorpay, Node mailer

- Engineered scalable backend services for real-time GPS tracking, route management, and fleet monitoring using Node.js, Express.js, MongoDB, and Redis.
- Designed event-driven APIs and WebSocket services to deliver low-latency vehicle location updates, trip events, and live notifications.
- Developed playback, trip history, reporting, and geofence management APIs with optimized MongoDB aggregation pipelines.
- Improved backend scalability through Redis caching, query optimization, and efficient data modeling for high-volume GPS and IoT workloads.
- Managed production deployments using Linux, Nginx, PM2, VPS servers, and Node.js clustering while collaborating with frontend teams to deliver reliable tracking solutions.

ParentsEye

Node.js, Express.js, TypeScript, MongoDB, Redis, WebSocket, Socket.IO, Firebase, Razorpay, Linux, Nginx

- Developed scalable backend services and REST APIs for a school transport platform, enabling live GPS tracking, attendance, route management, and pickup/drop workflows.
- Built real-time event-driven services using WebSocket and Socket.IO for live vehicle tracking, notifications, and

trip status updates.

- Optimized MongoDB aggregation pipelines, Redis caching, and database indexing to improve API performance for high-volume GPS and IoT data.
- Integrated Firebase Push Notifications, Razorpay Payment Gateway, and email services for secure payments, alerts, and user communication.
- Deployed and maintained production applications on Linux using PM2, Nginx, VPS servers, and Node.js clustering while collaborating with frontend teams for seamless integration.

RocketSales CRM

Node.js, Express.js, TypeScript, MongoDB, Redis, REST APIs, JWT

- Developed scalable REST APIs for lead management, customer management, inventory management, attendance, employee management, and payroll workflows.
- Built real-time salesperson tracking with live location monitoring, route history, and activity tracking using WebSocket-based services.
- Designed role-based authentication, authorization, and secure JWT-based access control with reusable backend modules.
- Developed analytical dashboards and reporting APIs, optimizing MongoDB queries, indexing, and aggregation pipelines for high-performance data retrieval.

Education

Govt. MVM Bhopal (BU)	2019 – 2022
Bachelor Of Science (BSC)	
G H Rasoni College of Arts, Commerce, Science Nagpur	2023 – 2025
Master of Computer Application (MCA)
